REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant has amended claims to incorporate allowable features indicated in the previous Office Action.

Specifically, none of the prior art teaches or suggests the following limitations:

- *Said first and second sets of circuit elements are interconnected by at least two transmission paths and wherein said controlling signals travel over both of said transmission paths as required by claim 1.*
- *At least a third set of control signal controlled circuit elements wherein signals from said first control signal source control said third set of controlled circuit elements, said third set of controlled circuit elements having co-located therewith a controller for substituting signals from said second control signal source for said signals from said first signal control source if said signals from said first signal control source become unavailable as required by claim 9.*
- *A controller on each of said boards, said controller operable for hierarchically selecting clock signals from at least one of said signal connections; and wherein said signal controllers on said first and second electronic boards are further operable for hierarchically selecting one or the other of said clock sources as required by claim 12, 16 and 20. And,*
- *The controller of the first node operates in tandem with the controller of the second node to alternatively select between control signal sources of the first and second node to supply a control signal to the first set and second set of circuit elements as required by claim 21.*
